Michigan-Cornell Game Holds Center of Interest in West

Chicago, Nov. 9.—An important contest between Ohio state and Wisconsin and the intersectional struggle involving Michigan and Cornell top the western conference football schedule Saturday (Nov. 10). Neither Chicago nor Illinois, which remain undefeated in the championship race, will go into action, these evenings, as well as Minnesota, Indiana and Purdue, having an "off day."

Interest centers in the Ohio State-Wisconsin game, which is to be decided at Madison, as defeat for Ohio the present conference champion, may mean its elimination from the 1917 race. Although the Buckeyes rule a slight favorite, critics agree that either eleven has a chance. Wisconsin displayed a reversal of form in triumphing over Minnesota 10 to 7 last Saturday and the victory has stiffened in the Badgers a new fighting spirit.

The game probably will furnish an individual battle between "Chick" Harley, All-American halfback of the Buckeyes, and Eber Simpson, the spectacular quarterback of the Wisconsin eleven. Both throw forward passes and do the kicking for their teams. Simpson demonstrated his ability as a kicker when he booted a drop kick goal from the 30 yard line that started Wisconsin's victory against Minnesota. He also accomplished wonders in hurling forward passes. In three periods, Simpson got away with ten out of twenty-five such attempts, for gains totalling 138 yards. Frequently he shot passes for 20 to 40 yards.

Preparations are being made to handle a huge crowd at the Michigan-Cornell game in Ann Arbor. It will be "home-coming" day at the Wolverine institution and thousands of alumni are planning on making the trip. A crowd of 25,000 is anticipated.

Michigan will go into the game the favorite, as Cornell is not regarded as formidable as in former years. The men of Yost have not been defeated nor even seriously threatened this season and the eleven has shown improvement in each game. Reports from the camp of the Wolverines indicate that Coach Yost is confident of victory.

3,000 of the state automobile registration funds...

Attorney General Lang and Assistant Attorney General David V. Brennan have been engaged for the last two weeks in gathering evidence on which to base their case. They have subpoenaed a majority of the employees of the secretary of state's office and many prominent bankers of Bismarck and vicinity. State Examiner J. R. Waters, Assistant State Examiner E. A. Thorber and W. C. Edwards, the accountant who discovered the alleged discrepancy, will take the stand tomorrow morning as witnesses for the state. It is said an effort will be made to prove that money which was made to make up the alleged deficiency in the automobile registration funds was borrowed a few days before the expose was made.

Secretary of State Hall after the first statement made by him in which he declared that any discrepancies which existed were of a purely technical nature; that the state had never been deprived of a penny and that there had been no intent to defraud the state upon the part of himself or anyone connected with his office, has declined to discuss the case. He expresses confidence in his ability to clear himself of the charge, and he has engaged as his attorney W. H. Stutsman of Mandan, former president of the North Dakota railway commission, and with whom Hall long was associated as secretary of the railway commission.

Eugene M. Walla, who has retained former Associate Justice E. T. Burko as his counsel, will not be heard until November 14, and it is not known whether he will appear as a witness in tomorrow's proceedings against his chief.

Hall is widely known throughout North Dakota. His father was one of the first settlers in Stutsman county, and the secretary of state has been prominent as a railroader and newspaper man.

SARGENT COUNTY WILL PUT \$40,000 INTO ROAD WORK ON STATE SYSTEM

Appropriates More than Quota Duo from Federal Aid—Letter May be Increased

T. J. Lough, of the state engineer's office, is back from Forman, where Sargent county commissioners at a meeting this week voted unanimously to increase the amount appropriated for state highway improvement from \$20,000 to \$40,000. This sum is greater than Sargent county's pro-rata share of the federal aid fund, but it is thought probable that through the non-application of some other county there may be enough more to be divided among the counties applying to give Sargent an amount equal to its appropriation. The county hopes within the next twelve months to construct the entire state highway system planned within its limits, a total of 68 miles.

"I am still on the job and doing the work of the office," said Mr. Haevischer. "So far as indications go I am sheriff of Mercer county," and he presented the proper qualifications to Sheriff French, when the latter turned over the man whom Haevischer wanted.
