SAN LEANDRO, Oct. 29 -With \$1.. for the grading of Park street Atom Day's street to the northern for I make to be opened at a meettes of the city council next Wedbedar night, the thoroughfare will be ready for winter auto traffic sefere the middle of December, it wes declared today by City Man-2367 W. A. Richmond.

Immediately on completion of the grading, the street, which is to connect with Russett street in Oakland, will undergo surfacing, the city manager explained. Whether the latter job will be by bid or day labor will be determined later. The amount of funds on hand will determine the width of the strip to

be surfaced, he said. Tentative plans call for a strip from 20 to 40 feet wide to receive the system of, The street will be 60 feet wide.

The gracing process will consume about two weeks, it is believed. Rids for grading of Dowling boulevard, from Mischell to Diehl avenues, also will be opened next

The opening of Park street to the cuy limits will provide a straight bre of travel from Oakland to the heart of San Leandro, running parallel with East Fourthe imvel from that artery.

chiday will be awarded the wining classes in a paper drive being touducted by the Emeryville high

student body. Students of the school will close beir drive tomorrow after con-lucting an extensive campaign to

collect old papers since Monday. The first half holiday will be awarded to the class bringing t the most papers while the second half holidar will be given to the class bringing in the most pape for the size of the class.

This plan is intended to give the malier classes an equal charce auth the larger classes.

nouncement by the treasurer of the student body to the effect that the student body funds were low and would have to be taken to raise money

The student council took immediate action and announced to the student body plans for the paper drive. This is the first paper drive Emeryville high has had for two

Demand for Mosquito Fish Is All But Gone

SAN LEANDRO, Oct. 29.-City officials today admitted they were a bit perturbed over the mosquito fish situation hers. Either the night, with attendance of more popularity of the fish is waning Van Horn of the First Congrega-tional church of Oakland, will be dodo, hobble skirts and the stock market, or those already in service Music will be furnished by the broadmoor choir, directed by R. Kleiner. The dinner will be pre-City Manager W. A. Richmond.

This month has not witnessed one demand for a supply of the fish, and the two municipal pools are swarming to capacity, the city manager said. Furthermore, residents with large personal supplies have not offered to donate a few hundred thousand, more or less, to

the city. "We realize that the popularity of the mosquito fish is subject to fluctuation, but we can hardly believe that the finny lion of few months ago is entirely in the

discard." Richmond said. Records maintained at city administration headquarters show that during the past two years approximately 3,000,000 mosquito fish were distributed by San

New Bass Hook Has

Mouse Trap Action SAN LEANDRO, Oct. 29 .- If the world will beat a path to the door of the maker of the best mouse trap, a whole lot of fish certainly should swarm around a new fan-

gled hook that uses a movee errangement, in the opinion of Ike Jry, who invented it.
Ury has devised a contraption hat uses the salient features of a eass hook and a mouse trap, designed to hold the bait in place and revent pilfering undersized rom nibbling at the barbed tid-

its.
Without offering too much wientific detail. Ury explained that the mouse trap arrangement was affixed to the hook in such a man ner that it would be a smart bass that could make away with the Furthermore, the bait so nides the surplus apparatus that the prospective quarry does not become wary. Ury explained
Ury has tested his invention and has had reasonable success, he de-

Sermon on Church

To Be Continued SAN LEANDRO, Oct. 29 .- The Rev. Hubert F. Doran, pastor of the Methodist-Episcopal church, will continue a series of sermons "The Church-Unique, Divine Indispensable" Sunday morning, speaking on "The Church Indis-

ensable," it was announced today.

Special music will be rendered by the choir, directed by S. R. Yates. The annual church bazaar will e held Friday, November 6, in the local business district. A sup-per will be held that evening at the church under the direction of Mrs. S. R. Yates.

miles is hastened to the discard by the corroding, metal-eating ravages of acid gasoline.

The process of corrosion is slow but sure. It attacks the cylinder walls, the pistons and piston rings, the valves and valve stems, the carburetor needle valve, the crankcase—all metal parts with which it comes in contact.

No wonder your car loses its snap and pep and power, uses more gasoline, costs more for repairs and upkeep as it grows older!

But it is no longer necessary for you to use acid gasoline. You now have an infallible acid test that positively proves the absence of metal-eating acids. It is the violet color of
