In sending to the House floor for debate next week a program. It voiced concern over last-minute obligation

The biggest cash cut imposed by the committee was \$420,000,-00 chopped from the \$1,125,-000,000 requested for military assistance. The \$705,000,000 approved, the commmittee said, should prove adequate" for requirements of the program durng the year. The total in the money bill
